

Long-Lasting Electric Water Heater — High-Usage Rental Units

Built for Durability in Demanding Commercial Environments

Product Overview

Target Application: rental properties, student housing, worker accommodations

Key Problem Solved: frequent replacement costs and maintenance in rental properties

Unique Advantage: heavy-duty construction extends service life to 8+ years

Technical Specifications

Parameter	AT30-R20VJ	AT50-R20VJ	AT80-R20VJ	AT100-R20VJ
Rated Voltage	220V	220V	220V	220V
Rated Frequency	50Hz	50Hz	50Hz	50Hz
Rated Power	2500W	2500W	2500W	2500W
Rated Pressure	0.7MPa	0.7MPa	0.7MPa	0.7MPa
Capacity	30L	50L	80L	100L
Dimensions	340x340x515mm	340x340x740mm	410x410x790mm	410x410x945mm
Net Weight	11kg	15kg	20kg	22kg

Key Selling Points

■ Heavy-Duty Construction

Reinforced tank walls and premium components withstand continuous daily use.

■ Magnesium Anode Protection

Sacrificial anode rod protects against corrosion, extending tank life in hard water areas.

■ Replaceable Components

Heating element and anode rod can be replaced without replacing the entire unit.

■ Low Maintenance

Designed for minimal intervention with self-diagnostic features and easy-access service points.

■ Total Cost of Ownership

Longer service life and lower maintenance requirements reduce lifetime ownership costs.

OEM / ODM Customization Services

Rental market customization with tamper-proof controls, durable finishes, and bulk packaging for property developers.

Factory & Quality Assurance

Proven track record supplying to major property management companies and housing developers worldwide.
